

## Why Linnstone

Zulitestone from Linnstone – innovative Crystalline Silica Free Surfaces, researched and developed to ensure high performance and safety during fabrication. The durability of zulitestone is not compromised despite the changes made to the product’s composition, incorporating recycled materials and minerals. These include certifications from reputable organizations and regular confirmation of its performance through SGS testing and other quality assurance measures. With such certifications, it means that zulitestone is a high-quality and safe option for the market. Besides, zulitestone is environmentally friendly and also represents the concept of ecological reliability, made with the help of renewable electric energy such as solar power and recycled water. Moreover, zulitestone is applicable to the following areas such as bench tops, splashbacks, wall paneling, vanity tops, flooring, and more, making it highly flexible to cover.

Zulitestone from Linnstone – The innovative, superior choice for Crystalline Silica Free Surfaces – Experience for yourself the assured quality, durability, and sustainability.

In addition to our technological innovations and environmental commitments, the product itself also possesses numerous unique advantages, as clearly demonstrated by the practical features described below:

### 1 Non-Porous

Impervious to air, water, or other fluids, ensuring lasting quality.

### 3 Enduring

Linnstone surfaces are SGS-tested for quality assurance and are backed by warranties.

### 5 Hygienic

High resistance to the growth of bacteria, mould, and mildew, keeping the surfaces safe and clean.

### 7 Scratch-Resistant

Highly resistant to scratches and not prone to scrapes.

### 2 Durable

Durability is defined by its high resistance to abrasion, heat, compression, and corrosion.

### 4 Easy to Maintain

General surface stains can be removed using water and mild cleaning products.

### 6 Stain-Resistant

Resistant to stains, easy to clean, and low maintenance.

0%

With Crystalline Silica Free Formula

30%

Up to 30% Minerals for Best Result

70%

Up to 70% Recycled Raw Materials

100%

Nearly 100% Recycled Water

100%

Nearly 100% Power from Solar Energy

## Certification

Certified to international standards, Linnstone surfaces exceed expectations.

## Warranty

At Linnstone, our customers are at the core of everything we do. Our Residential Lifetime Warranty and Commercial Limited Warranty demonstrate our commitment to supplying high-quality slabs to end users through certified fabricators.

Residential Lifetime Warranty

10-Year Commercial Warranty
